Requirement ID				
A	B	C	D	E
Requirement ID	Requirement Description	MoSCoW Category	Justification	Priority Reason
R1	Search books by title and author	Must-Have	Core library functionality	Essential for users
R2	Online book reservation	Must-Have	Improves accessibility	High user demand
R3	Monthly borrowed books report	Should-Have	Important for administration	Operational efficiency
R4	Email notifications for overdue books	Must-Have	Prevents book loss	High impact
R5	QR code scanning for borrowing/returning	Could-Have	Enhances speed	Requires extra hardware
R6	User-friendly dashboard for librarians	Must-Have	Required for management	Core system control
R7	Review and rate books	Could-Have	Improves engagement	Optional feature
R8	Chatbot integration for assistance	Could-Have	Helps users	Resource intensive
R9	Mobile app version	Should-Have	Improves accessibility	Medium feasibility
R10	Multi-language support	Won't-Have	High cost and complexity	Low priority initially
